racecar drivers

"I rely on my COOLSHIRT SYSTEM to keep me cool, comfortable and focused."

Shea Holbrook
Professional Racecar Driver

HOTHEAD KIT

The HotHead Kit is designed with the budget conscience racer in mind. The kit includes a Kart Bag (with or without lith kit), a 4' hose with safety pull release fittings and a Cool-A-Clava. This kit will provide head cooling for those who want a small, light weight system and does not need any body cooling. It is perfect for open wheel, legend cars, HPDE, sportscar racing and anyone who wants cooling but does not want to add much weight or amp draw to their vehicle.

Bag Dimensions – 4"D x 7"W x 7.5"T

Race Ready Weight – 6.5lbs

Amp draw – less than 3 amps

SKU: 12v – 3002-0019, Lith Kit – 3002-0018

DRAGPACK SYSTEM

Designed for Drag racers specifically, this complete kit comes with the newly designed DRAGPACK ice based cooler system, a Driver Cooling Vest, a 12 ft insulated hose, and a 7 hr. lithium battery with charger. Reaction times alone can be reduced by as much as 20% with only a 2% loss in hydration. The DRAGPACK system covers 30-40% of the body with cold water circulating through tubing designed to dissipate heat away from the body, in-turn, cooling the core.

Emergency pull release standard on all racing products.

SKU: MobileCool1 – 3002-0017, Mobilecool2 – 3002-0016
